

**Proposed Project –Do It Yourself (DIY) Academic Activities
during the year for Students & Teachers for Grades 1 to 10.**

April 13, 2019

Presented by Arya Consultancy, Gujarat, India

About the Project

Project Title: Do It Yourself (DIY) Academic Activities for the Students and teachers thorough the Learning Centre

Project Goal: Child centric and interest based academic activities for children's learning

Plan:

To increase learning levels of students by building capacities of the teachers and providing grade wise, subject wise and skill specific content to students for independent learning and practice.

Objectives:

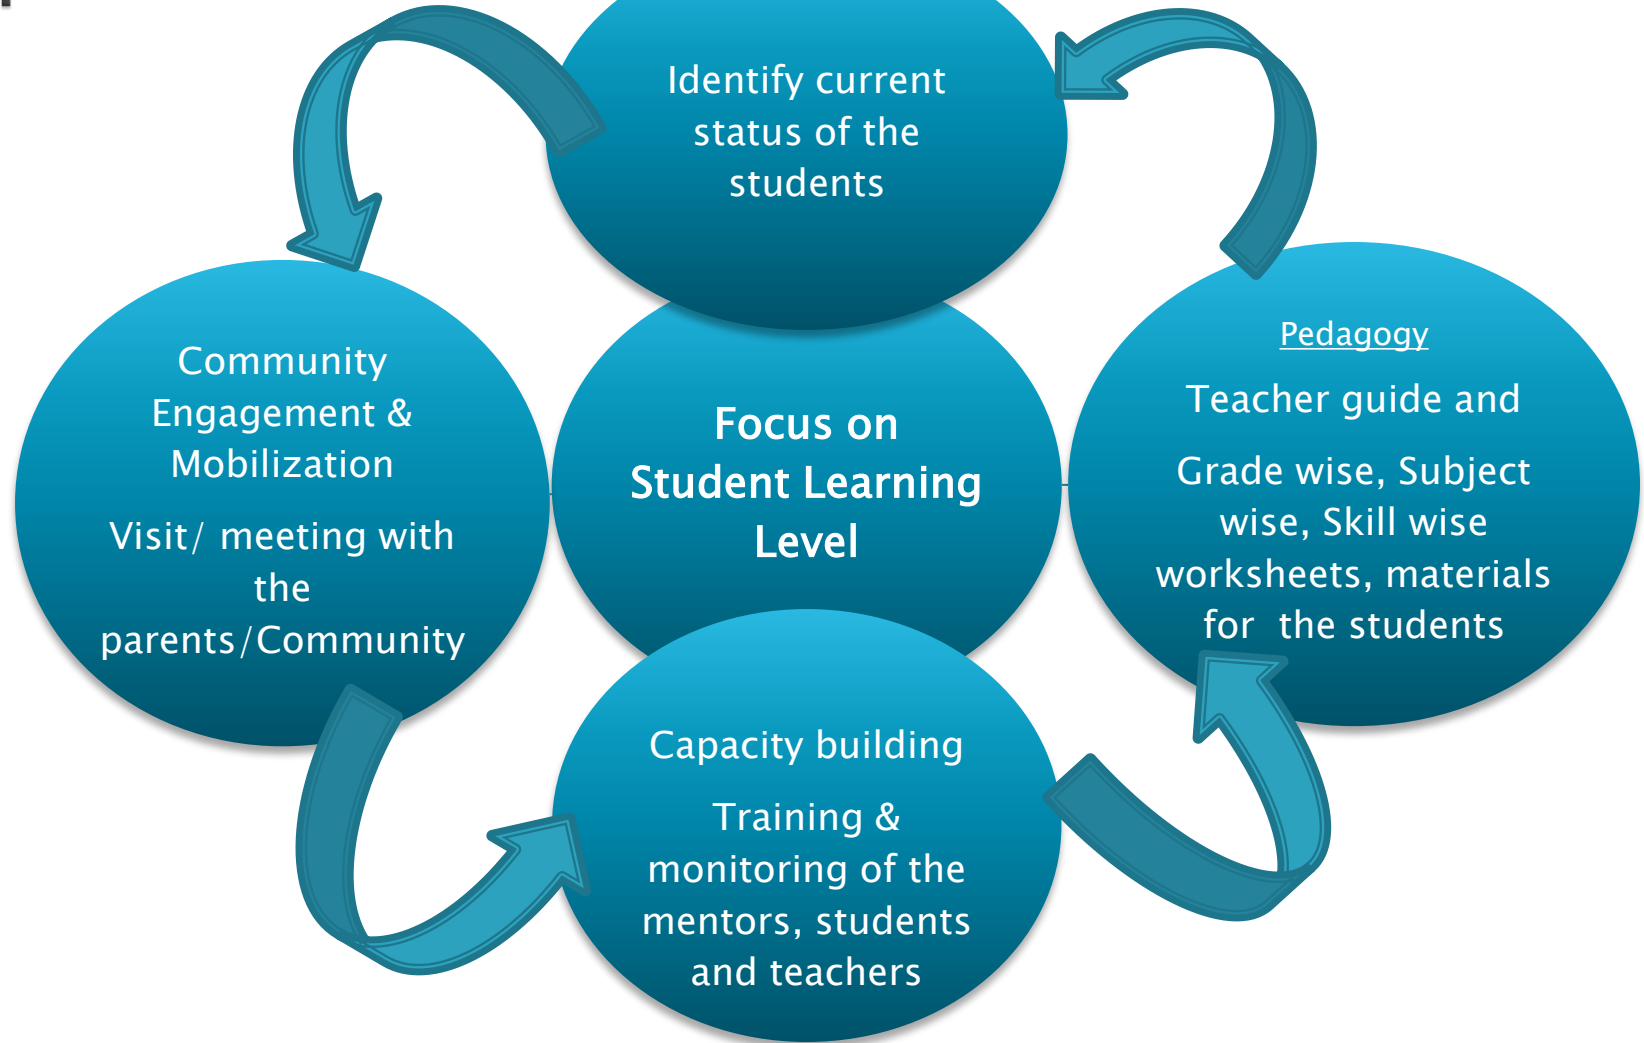

1. Increase learning levels of the students.
2. Build capacities of the teachers to improve learning levels.
3. Onsite mentoring for improved academic indicators.
4. Support for basic literacy to dropout & girl students

Project Area and Target Group: The project is proposed to be implemented in Nalsarovar block at Viramgam of Ahmedabad district covering.

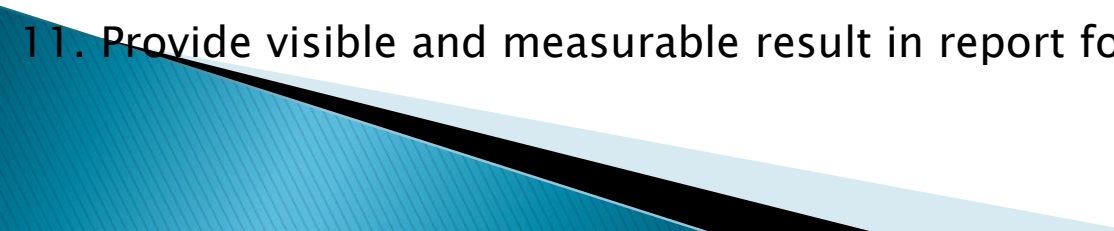

Project Period: The project duration will be of 3 to 5 years

Implementation Model

Strategy

1. Communicating to the community about the project and get support
 2. Inaugural event in each Learning Centre
 3. Registration of the children
 4. Base line to map the current learning levels of the students
 5. Recruitment of the local teachers
 6. Provide continuous training to the selected local teachers
 7. Preparation of teacher guide, worksheets, hands of materials, models etc.
 8. Take session every day and follow up with the schools
 9. Career orientation sessions, community engagement through out the year
 10. Onsite mentoring and monitoring
 11. Provide visible and measurable result in report form
- 

Detailed Strategy

Communicating to the community about HGCL and the project through newspaper, one to one meetings etc.

Inaugural event: The inaugural of the project will done in Nalsarovar Block in coordination with HGCL.

Registration of the students: The students will be registered from the primary schools as well as parents for the program. Formal written consent of the parents will be taken to register their child in the project for Learning Centre.

Baseline:

- To understand the current learning levels of the students, baseline will be done.
- The tool will be developed grade wise, subject wise and selected skill wise.
- The sample includes all the children who have registered for the project.
- The subject selected includes Gujarati, Maths and Science.
- Data coding, analytics and report will be developed.
- Baseline report will inform the implementation framework.

Recruitment of the teachers and mentors (Women only – selection criteria will be decided mutually with HGCL – Minimum Graduate pass) :

Option 1 – Ready Resources, or

Option 2 – Identify from the community, or

Option 3 – CRCs

Cont.

Cont.

Teacher guide:

Guide for teachers will be prepared to help the teacher transit the academic content to the students. The teacher guide will include day wise key components as per the program schedule.

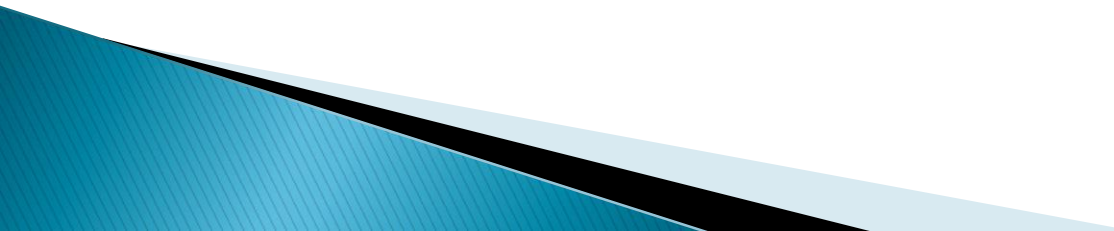

Capacity building of the local teachers:

Capacity building of the teachers will be done. Two days training will be given based on the program schedule. Maximum of 15 teachers in one batch will be included. Total batches will be made as per the total teachers involved in the project.

Materials for students & teachers:

- Subject wise, skill wise worksheets will be developed for the students
- Hands on materials, models and puzzles, learning games will be developed
- Maths, Gujarati and Science subjects worksheet will be made for each student.
- Worksheets keep on Learning Centre for the evidence of the

Onsite mentoring : For continuous support to the teachers, onsite mentoring will be done by the mentors as decided by HGCL. Capacity building of mentors will be done.

Cont.

Robust Project Monitoring:

1. Formation of Steering and Monitoring Committee
 - Arya Consultancy will present the project update quarter or as required to the HGCL. Inputs will be included.
 - The mentors will make note of the work done on daily basis
 - Meeting of local teachers and Arya Consultancy will be done twice in a month

Key deliverables: The following outputs are expected at the end of the project:

1. Increase in students learning levels
2. Teachers identify learning gaps and trained to help students improve
3. Children engaged in learning by self
4. Children involved in scholastic and co-scholastic activities during school. This will help build the gap experienced by the school and the children during long academic breaks.
5. Community awareness for education leading to increased community engagement.

Documentation:

1. Baseline report
2. Project intervention report
3. Any other, as required (Media coverage/Website document/Success story/ Videos)
