

Anganwadi Development/Support Program

Sr. No.	Item	Description
1	Project Name	Kids Learning Kit – Distribution (Total 40)
2	Purpose and basic Information	<p>ERIS Lifesciences Ltd., Ahmedabad is working in Gujarat, understanding its social responsibilities and so it sponsored Kids Learning Kit for society. We are thankful to ERIS for being a part of this process. The Kits were chosen in a way that students can learn pre Maths & Science concepts through playing/activity with it. Apart from pre math science concept learning another major objective was kids learn through fun and enjoyed. Kits includes many games, sports materials, picture books, puzzles, musical instruments etc. Total 50 Kits were sponsored by the ERIS company.</p> <p>Though the kit was designed by Anand Niketan school- well-known private school of Ahmedabad, ERIS wanted it to be distributed in the urban/rural areas so that underprivileged students can take its benefit and it will be very helpful to teachers to teach and roping the concepts easily in young minds.</p>
3	Aganwadi Selection	We have thoughtfully selected 10 anganwadis from rural (10 kits)& one full cluster from urban (30 kits) areas where such kits were rarely available for students. One full cluster covered at Sabarmati-Ahmedabad and some anganwadis selected from north Gujarat.
4	Effective Distribution and Volunteers information.	<p>After choosing the Anaganwadis we have decided the process in which it should be distributed. We had made one form which includes the name of Ananganwadi, authorized person, clearly mentioning that the kits were sponsored by ERIS.</p> <p>The steps were defined as to meet Anganwadi worker/teachers first, then expert team demonstrated it to teachers how to do activities with it. Even, we have</p>

		<p>taught about how to use it and preserve it so that it can be use longer time. We have also asked teachers to make a note on the output time by time.</p> <p>Volunteers Info:</p> <ol style="list-style-type: none"> 1. Mr.Anand Soni – 9898585452 2. Mr.Mahendra Bhrahmbhatt – 9723313799 3. Ms.Hiral Adhyaru – 9427308943 4. Ms. Harshaben Solanki-9898363685
5	Feedback & Learning	<ul style="list-style-type: none"> • Experience/Reaction from Teachers and students <p>Teachers as well as students were so excited that it can't be expressed in words. Following snaps itself shows their feelings. Students were asking when they really can use it and for using it individual as they initially believed these were toys, so we just open it there and there only and every face has smile. Teachers were so glad that they received a fantastic tool to enhance their effectiveness.</p> <ul style="list-style-type: none"> • Experience as a Volunteer <p>We learn from first distribution, regarding hand holding tightly and covered whole cluster because we keep monitoring and get updates in well-timed. We are a part of such a noble cause of distributing learning kits for underprivileged students and get chance to work under guidance of Shri Kamal Mangal, Director of Aanand Niketan School.</p>

		As discussed with teachers, once in a month volunteers will be visited some anganwadis and get feedback for first quarter from December 2017to February 2018.
6	Further steps to keep going	<p>As per our experience regarding Anganwadi's requirements and support to the teachers as well students, suggestions are below:</p> <ul style="list-style-type: none"> • Next year take 5 Primary schools for 3 to 5 years for quality education with technology • Distribute Bal-Amul for red zone malnutrition students • To open 'Learning Center' in the village/area and provide health and hygiene related programs • Provide Smart Class with software for language learning with fun • Awareness programs for pregnant women, parents and community • Provide sport kit to the students for estimation, eye and hand coordination and physical exercises
7	Photographs	Some photographs of school Kit distribution in different anganwadis are enclosed as Annexure-II.
